

Raja Rogers Meeting Notes
December 12, 2006

Ruth	We are in Baton Rouge, LA. Jeff taught 3 men and we are checking many. Many here have PTSD (post-traumatic stress disorder). Katrina trailers are cramped inside, not very well insulated for winters in the north. Suggest that you send someone to inspect them. Winds in Iowa might be too powerful for them.
Raja Rogers	How are you connecting with people in Baton Rouge to learn TM?
Ruth	This was just a fact finding mission initially. On way to Baton Rouge, we got a call from the 888 LEARN TM. Other two referrals were from Sylvia Richards. Hotel is due North. The hotel gave us use of the Board Room for free! “Katrina Mind” – not as bad as PTSD, but a lot of people are on medication – anxiety, depression, listlessness and suspicion. The collective consciousness feels this Katrina Mind too. New Orleans is not a good place to go for teachers, but from Baton Rouge we can help. So we are advising people who want to learn TM to come up to Baton Rouge and book a hotel room for the weekend.
Raja Rogers	This is a wonderful approach.
Ruth	We have our home phone call forwarded to our cell phone when we are on a trip. That’s how we got the 888 LEARN TM calls.
Raja Rogers	How was your interaction with Tom at 888 LEARN TM?
Ruth	Very good. Also the Call Center lady who called was very effective.
Dori	Sidhas there would be very interested in hearing from Raja Rogers about Maharishi’s feeling about rebuilding New Orleans, etc.
Raja Rogers	Email any information about LA and meditators there to Ruth and Jeff. Our government has failed there. We need to give them the advice to build homes facing East, on the grid and not to build in a bowl (as what was done in New Orleans). Shankara in Crest Jewel of Discrimination says that suffering is a great motivator for evolution. So the more we are able to be there for them, without damaging our own nervous system, the better. #1 is to take care of yourself, #2 to help the people. Have other people heard from the National Call Center yet?
Stuart	We get a steady stream of calls from our Intelligent Office, but don’t know where they are coming from. We just had 3 people start TM.
Raja Rogers	If people call the 888-LEARN TM number from the website or other place, then they get the national call center. They get a live person who is a Recert Gov. Open from 9:15 am Eastern – 7 pm Pacific. Better if National Call Center people are able to call you directly and talk with you about the lead. At the Raj, if we don’t contact people within 24-48 hours after they call, then the response percentage drops off dramatically.
Stuart	How do I get them our direct number then?
Elaine	Pls send to me and I will send it to Call Center as I have been

	coordinating the numbers.
Steve	We got a lead passed on to us by the Call Center. He is a naturopathic physician. If you forward your business line to your cell phone, the caller will not see your phone number on Caller ID, which most people are happy about.
Raja Rogers	Contact Elaine if you want to change the number that you originally gave her for Call Center leads. We have a customer database tracking the profiles of people who call in.
Stuart	Is it the Call Center who calls us or the actual person who is inquiring?
Raja Rogers	<p>The Call Center.</p> <p>Such a great thing that Ruth and Jeff have pioneered. That is the entrepreneurial spirit.</p> <p>If we hear of someone who wants to learn or to get checked in another city, then we get a hold of the teacher in that city. We network.</p> <p>30 more pundits headed this way this weekend. Now we are at 356 pundits, plus their cooks, etc. I really feel that some of the openings we heard about tonight are being generated by the change in national consciousness. We should expect more of what we heard tonight. We attribute that to Maharishi sending the pundits here.</p>
Stuart	In our local SuperRadiance groups, everyone is commenting on deeper experiences.
Alcine	Ray will meet with a school – 2200 students – already on board for bringing TM in. And there is another school ready.
Raja Rogers	<p>Ray is a real powerhouse and we wish him all success.</p> <p>The experiences here are becoming more and more stellar. Today a lady had an experience of starting to meditate and then everything melted into the Transcendent. She had the impulse to open her eyes. When she opened her eyes, whoever she looked at, she would see all of their past lives and also their own transcendental aspect. What she witnessed was that everything was perfect. The whole chain of lives was perfect. Bevan reminds us that we all have different nervous systems so we will experience the Transcendent differently.</p> <p>As usual, I'm available on the phone. I'll be calling the Centers in the next week to get a 5 minute report and answer questions.</p>
